Through much in-game exposition, we learn that General and Colonel (great names!), under instruction from the evil Sigma, have incited Repliforce, an army of reploids formerly allied with our heroes, the Maverick Hunters, to riot.. Flight sims are a good example, as are most golf games What many don't realize, though, is that even a genre as innocuous as the simple platform shooter has a hard-core fan base - a league of players that can run faster, shoot longer, and generally destroy any side scroller in one sitting.. Mega Man X4 was created for them First, you must be a fan of the motif to even understand this game.. Following Sigma's plans to destroy the human race that created them, they have demolished a Maverick Hunter base and promise to continue the destruction until their final weapon is complete, and the earth is vaporized, or something like that.. In addition to the game's general aesthetics, all the cinematic scenes are 100 percent anime, right down to the shamefully bad voice acting.
